ROMAIN FREZIER

ENGINEERING STUDENT IN COMPUTER SCIENCE AND MANAGEMENT

Objective

I'm looking for a **6-month end-of-study internship** to develop my skills, work with a dynamic team and contribute to the realization of innovative projects.

Professional Experience

Reactional Music, Stockholm, Sweden
June - August 2023
Internship — Junior Fullstack Developer

Development of web applications to help game developers integrate interactive music into their games. These applications include a platform for content navigation, prototyping and resource retrieval for game engines, as well as a tool enabling game music composers to compose interactive music tracks.

Skills : *React, Express, Typescript, Electron, GCP, Firebase, Agility, English*

J-TECH SA, Geneva, Switzerland
July 2017, July 2018, July 2019, July 2020, July 2021, July 2022
Ventilation fitter (Summer jobs)

Education

2021-2024 *Polytech Montpellier* **In progress...**	5th year of a 5-year engineering qualification in Computer Science and Management Expected graduation : September 2024 Equivalent to a MSC. Eng.
2019-2021 *Polytech Grenoble* **Admitted**	Equivalent to 2 years of Preparatory Classes leading to a place in one of Polytech's highly selective Engineering Schools (a place on the 2-year course is obtained after selection and competitive exam).
2019 *Lycée Anna de Noailles*	Baccalauréat Scientifique, mention bien Equivalent to a High School Diploma in Science, passed with good grades

School Projects

Mobile Project — March 2023 - April 2023
Python, PySpark, Pandas, AWS S3, Athena, SQL, Maths

The Mobile Project is a project that we had to do during our 4th year of engineering school. The goal of this project is to create an REST API that will be used by an iOS app.

AWI — January 2023 - March 2023
Angular, Firebase, Express.js, MongoDB

The AWI (Web Application and Interoperability) project is a project that we had to do during our 4th year of engineering school. The goal of this project is to create an REST API that will be used by a web app.
